Good day

LAUNCHING OF THE RIETONDALE HIGH SCHOOL e-LEARNING PLATFORM (GRADE 8 & 9 ONLY)

It is with great enthusiasm that we would like to announce the launch of the Rietondale High School Online, custom made, e-Learning platform. We are counting down the days to our first day of going 'online'.

All our teachers have received training and are very excited to get started. We are sure that this new platform will offer a lot of assistance and support in the uncertain future.

A user link has been created to your child's learner number that can be used to access his/her learning content and classes using a mobile phone, tablet or personal computer wherever you have access to the internet. Please find attachment to this email a handy guide with step by step instructions and screenshots explaining how to navigate through the website.

To access your child's e-learning account you can go to the following URL using your devices internet browser: <https://online.rietondalehs.co.za/>

To login into the account use the "Login/Register" button at the top right hand side of the page using the following credentials:

Username: YourChildsLearnerNr@rietondalehs.co.za

Password: RietondalePassword#001

You will be prompted to verify your (the legal parent/guardian) age, accept the system terms and conditions and change the password.

Please be advised that, for security reasons, this email address can only be used to access the Rietondale High School e-Learning platform, and should please be kept secure.

We are hosting a trial run this week where we will post work on both the D6 communicator and the online platform in order to allow everyone to become comfortable with the new platform.

If you have any queries or need assistance please contact Mrs Ahlschläger via email: mahlschlager@rietondalehs.co.za.

Kind regards
